MR. BACON'S

SCIENCE CAMP

JULY 13TH THROUGH 31ST, 2009

This year held at Del Val High School!

FLIGHT

Up, up and away! Students will design, build and launch all sorts of devices that actually fly, glide or float through the air. We will make working hot air balloons out of tissue paper and incredible paper airplanes and gliders and more.

YOUNG ASTRONAUTS

This is a beginning model rocket class. During the week students will build their own Estes model rocket. Fridays are the big launch day! This class is a wonderful introduction to the thrill of model rockets.

VOLCANOES!

Build a working model of a volcano! Paper mache...paint...decorate with dinosaurs leaves & rocks and watch the "lava" flow! This is one of the most popular classes at Science Camp. Don't be left out ...sign up early.

X-TREME SCIENCE

Nothing but cool science experiments! ...dissect a frog and an owl pelleton electricity day watch lightning come out of your elbow! Chemistry, fantastic flying things and more!

ROCKET DESIGNERS

In this class students will design, build and launch a model rocket of their own design. Learn the basics of rocket construction and make a unique rocket. This class is open to all students, but some model rocket experience is helpful.

Students are welcome for one, two or three weeks, and for one, two or all three hours!
 Each class is \$40 Make checks payable to: **Kingwood Parks & Rec Dept.**
 Send checks and completed registration form to; Science Camp c/o Kingwood Township School.
