It was suggested to contact or go personally to the land owners, and ask them if they are interested. Mr. Burke noted that signs will be put up on the Gergar property, the Melnyk property and many other farms which have been preserved. Mr. Burke suggested that the Township make up our own sign. He will take a picture of signs he has seen in other towns to get an idea of what they look like. Mr. Mathieu suggested that the names be on the signs of the original owner for history purposes. Mrs. McNicol would like to make a deadline, possibly by the next meeting to have a photo of another sign, so that the Committee can get an idea of what they want to do.

NEW BUSINESS

Hike - Harms property

Mrs. McNicol noted that she and Richard Dodds received confirmation that it would be okay to have a community hike at the Harms property. Mr. Mathieu reported that he spoke to Mr. Thomas Flagg, and he also received confirmation that the hike could be on Mr. Flaggs property. The Committee discussed which property to be hiked on and they decided that Mr. Flaggs property would be a good property for the springtime hike and they would go in the fall to the Harms property. He noted that Mr. Flagg is looking forward to the Township having a community hike on his property. The hike is scheduled to be on May 2nd 2009 from 9:00AM till 12:00PM with a rain date of May 16th 2009. Mrs. McNicol read aloud a flyer which she prepared to put on the website so residents could be informed. Seeking Advise from the Agriculture Advisory Committee

Phil Lubitz explained that the Township Committee is in the process of working on an ordinance in reference to excess equipment and junk on resident properties. He explained the Township Committee had a discussion at their meeting about the ordinance, and they would like to be sensitive towards farmers who leave old equipment around and need the parts. Mr. Lubitz stated they are looking for ideas and assistance from the Agriculture Advisory Committee for guidance to word the ordinance appropriately pertaining to farms. Mr. William Pandey described several items on his farm that look like junk, but noted that it is not indeed junk.

He said all of his large equipment that is lying around is all usable. Mr. Burke stated that the Township is trying to do away with eye sores on properties, such as, old unused cars, and much debris lying around.

There was a lengthy discussion on the ordinance the Township Committee is working on to control the junk and large equipment on private properties. Elaine Niemann suggested getting together with William Pandy and Cynthia Niciecki to discuss some of the wording that could be worked into the ordinance before the next Township Committee meeting.

Sandra McNicol noted she gave Secretary Keller a request to obtain open space information from C.F.O. Diane Laudenbach for the amount of funds and bonding that has been spent, used and that is available for the next months open space meeting.

Sandra McNicol asked the Committees how they felt about her writing a notice to the residents by way of an explanation of how bonding, open space, and open space funding works to educate the public. She noted that it would be a good idea to put this information on the website. All the members agreed this would be a very good idea.

Conservation Easement Slates

Secretary Keller brought to the meeting a conservation slate for everyone review. Mrs. McNicol discussed the plans the Planning Board has for the slates.
